## My Profile.

Senior software engineer with over 10 years of experience developing applications using JavaScript, TypeScript, Python, and C++ for startups and multinational corporations, with some of my work being used by millions of users today.

# Work <Experience/>

December 2022 - November 2023
### Founding Software Engineer
Bardo, Remote
bardo-app.com

As the Founding SWE led the development of Bardo right from the beginning. I developed a RESTful API, an SPA, a Zoom App and integrated the app with Google OAuth, OpenAI and Amazon Transcribe.

**TYPESCRIPT NODEJS EXPRESS POSTGRES PRISMA JEST AWS LLM REACT D3**

October 2021 - September 2022
### Founding Software Engineer
Miter, Remote
miter.co

Joining as the first hire, I collaborated closely with the founders to refine their initial prototype and transform it into a production-ready product. I took ownership of entire projects, automated deployment, and mentored new engineers.

**TYPESCRIPT NODEJS EXPRESS POSTGRES PRISMA JEST AWS WEB SOCKETS**

February 2021 - June 2021
### Software Architect
Moicon, Remote via Toptal
moicon.net

The company had issues to continue adding features to its API due to the complexity of the code. I rebuilt their API from scratch in a modular and scalable way.

**TYPESCRIPT NODEJS EXPRESS POSTGRES MONGODB MOCHA AWS REACT**

June 2020 - December 2020
### Full-stack Developer
Child Mind, Remote via Toptal
childmind.org

I was part of a team building tools to improve the lives of children facing mental health and learning disorders. I helped develop the web and mobile app and collaborated on the writing of a scientific paper.

**TYPESCRIPT NODEJS EXPRESS POSTGRES JEST AWS REACT HIPAA REACT NATIVE**

vv

January 2019 - June 2020

### Lead Developer

Armor Bionics, Remote

armorbionics.com

As the Lead Developer in ArmorBionics, I was in charge of developing a HIPAA-compliant API, a React Single Page Application, a 3D renderer, a DICOM file viewer and a DICOM-to-3D converter.

**TYPESCRIPT NODEJS EXPRESS POSTGRES JEST AWS REACT HIPAA THREE.JS DICOM**

October 2017 - August 2018

### Lead Developer

Tigo El Salvador, Remote via Toptal

tigo.com.sv

I developed an internal mobile app to replace paper forms and reduce the time needed to make a sale. As a lead developer I was in charge of infrastructure and implementing the SPA and RESTful API.

**TYPESCRIPT NODEJS EXPRESS POSTGRES JEST AWS REACT**

June 2016 - September 2017

### Software Engineer

Axcient, Remote

replibit.com

My role in this company was to structural issues in the project that were costing the company users. I implemented a FUSE filesystem, fixed the virtualization of snapshots, integrated the app with ConnectWise and led a refactor to increase modularity.

**JAVASCRIPT PYTHON FLASK POSTGRES MONGODB FUSE C++ ZFS LINUX**

June 2014 - June 2016

### Software Engineer

Sophilabs, On-site

sophilabs.co

At Sophilabs I engineeried and implemented solutions for several clients using a wide range of technologies and programming languages. I was a full-stack engineer and led teams of up to 5 people.

**TYPESCRIPT PYTHON C ANGULAR.JS REACT DJANGO FLASK EXPRESS HAPI MONGODB POSTGRES CASSANDRA REDIS**

# Some of my <Projects/>

**Aloha**

sayaloha.co

Peer-to-peer video-call app built using Typescript & WebRTC.

**Ncode**

ncode.uy

Personal website built with NextJS and deployed on Vercel.

**React Form Wizard**

github.com/ngonzalvez/rfw

React library to create forms and wizards in no time.

**Rest Facade**

github.com/ngonzalvez/rest-facade

Integrate your app with third-party APIs in just a few minutes.
